

Introduction

Dear reader,

Welcome to the Basic Course in Glaucoma of the World Glaucoma Association. This course consists of 4 modules that address basic aspects of glaucoma diagnosis: Intraocular Pressure, Gonioscopy, Standard Automated Perimetry, and Clinical Examination of the Optic Nerve.

These modules were written by world renowned experts in the field, and reviewed by members of the education committee. They are intended for ophthalmologists and other eye-care providers.

All texts, pictures and videos were adapted to an online platform by a team of e-learning experts. This will allow you to have a pleasant learning experience. At the end of each module there is a multiple choice test that will autocorrect once the exam is completed.

We hope that you enjoy the course and gain new knowledge to improve your diagnosis skills.

S. Fabian Lerner, MD
Chair, Education Committee

Education Committee

Members: Eytan Blumenthal, Maria Carrasco, Tanuj Dada, Gustavo de Moraes, Marcelo Hatanaka, Ingrida Januleviciene, Fabian Lerner (Chairman), Chris Leung, Sola Olawoye, Pradeep Ramulu, Harsha Rao, Lisandro Sakata, Tina Wong
